

Quality Inspector

GUNZE Electronic USA delivers the world's most reliable touch screen interfaces for the world's most demanding operating environments. We design and manufacture transparent touch panels; providing system integration for controllers to circuit boards for consumer electronics, industrial, automotive, medical, mobile, and POS/retail kiosk applications. Gunze also integrates touch panels to LCD's.

Electronic Assembly experience:

Conduct quality control inspections in a cleanroom environment for screen printing, die cut, and assembly; to ensure product quality is meeting requirements. Providing timely solutions to maintain the continuity of product flow

Collect quality inspection data and document the results for analysis

Dimensionally inspect product and subassembly components to assure compliance to customer specifications. Use a Micro-Vu, calipers, micrometers, other metrology tools and equipment for measurements.

Troubleshooting electronic/mechanical assembly and subassemblies using drawings, work instructions, applicable quality test, etc. to identify the root cause and solutions

Identifying and processing of nonconforming product and parts

Conduct incoming inspections of materials and products

Knowledge, Skills, and Abilities:

Minimum 1year electronic assembly experience in Quality Assurance or Electronic Assembly

Minimum High School diploma.

Visual and dimensional inspection skills to use precision measuring inspection tools.

Familiar with clean room standard concepts, practices, and procedures

Ability to process routers and interpret designs/drawings.

Must be able to stay on task, be self-motivated, and be able to work under minimum supervision.

Familiarity with ISO 9001 and 14001 standards

Ability to work from technical manuals, specifications, drawings, diagrams, written and verbal instructions

Demonstrated proficiency using Microsoft Office Suite

Ability to communicate and interact as a team player in a multinational work environment.
